FRANCIS XAVIERY MIGUEL Q. TONZO

Backend Developer Intern (OJT)

San Jose, Tarlac City
09984951569 | francistonzo5@gmail.com
github.com/Xav0929 | fxtdev.vercel.app

OBJECTIVE

Fourth-year BSIT student at PHINMA Araullo University seeking an On-the-Job Training (OJT) placement as a Backend Developer Intern. Experienced in building REST APIs, authentication, and MongoDB-backed systems with Node.js and Express, and in deploying them to production. Eager to contribute to a development team and grow through hands-on, real-world experience.

EDUCATION

PHINMA Araullo University | 2023 – 2027
Bachelor of Science in Information Technology (BSIT)

AMA Computer College | 2020 – 2021
Senior High School, STEM Strand

TECHNICAL SKILLS

- **Backend:** Node.js, Express, REST APIs, JavaScript, Next.js API routes
- **Frontend:** React, Next.js, React Native, HTML, CSS
- **Database:** MongoDB, MongoDB Atlas
- **Authentication and Integrations:** Auth.js, OAuth/OIDC, Shopify Admin and Storefront APIs, Cloudinary
- **Tools and Deployment:** Git and GitHub, Render, Vercel, environment configuration, CORS
- **Professional:** Problem-solving, debugging, time management, teamwork, working under pressure

PROJECTS

Shoepreme: E-commerce Storefront and Admin Panel | Next.js, MongoDB, Shopify API
- Developed backend integrations with the Shopify Storefront and Admin GraphQL APIs to manage orders, products, fulfillments, and customers
- Implemented secure authentication with Auth.js and the Shopify Customer Account API (OAuth/OIDC), including session handling and account suspension
- Designed MongoDB storage for customer data and deployed the live client application to production on Vercel

CIT Scheduler: Capstone Project | Node.js, MongoDB Atlas, Render, Vercel
- Collaborated with a teammate to develop a web-based scheduling system as our capstone project
- Deployed the backend on Render and the frontend on Vercel, with MongoDB Atlas as the database
- Resolved production issues involving CORS configuration, environment variables, and database access

HK-SAMMS: HK Scholar Duty Management and Scheduling System | 2025 – 2026
- Developed a scheduling and record management system using React Native, Expo, and MongoDB
- Applied database design and basic UI/UX principles as part of course requirements

WORK EXPERIENCE

Wedding Coordinator (Part-Time) | 2025 – Present
- Coordinated event schedules and timelines in support of senior coordinators
- Maintained client, vendor, and event records
- Provided on-site support to ensure smooth event execution
